NEW MEXICO SUPERINTENDENT OF PUBLIC INSTRUCTION

ANNUAL STATISTICAL REPORT

JULY 1, 1978 to JUNE 30, 1979

Leonard J. De Layo
State Superintendent of Public Instruction

New Mexico Department of Education
State Education Building
Santa Fe, New Mexico 87503

Compiled by Caroline T. Chavez,
Data Management Unit,
Division of Administrative Services
505-827-2048

FOREWORD

The purpose of the Annual Statistical Report of the New Mexico Superintendent of Public Instruction is to provide basic information about the schools of this state -- their students, staffs, administrations -- both public and private. Supplementary information may be found in other publications of the State Department of Education, such as "New Mexico School District Profile," "How New Mexico Stacks Up On Education," and "New Mexico Educational Personnel Directory."

This annual report is transmitted to the Governor and the Legislature as required by law (Section 22-2-6(D), NMSA) and copies will be sent to the local school districts and interested citizens. We hope that it will be a useful document for all those officials and other persons who share our concern about the progress and improvement of education in New Mexico. Although this information is expressed for the most part in impersonal statistics, it relates to the lives of real people, such as the children pictured on the cover.

Leonard J. DeLayo

LEONARD J. DE LAYO
Superintendent of Public Instruction

November 1, 1979

EXPLANATION OF TABLE II, HIGH SCHOOL GRADUATES BY RACE/ETHNIC CATEGORY

Ethnic data on high school graduates are collected and printed by individual high school. Table II includes all high school graduates during school year 1978-79 and summer school 1979. To the right of the number of graduates shown in each of the race/ethnic categories, by male, by female, and the total figure, there is a percentage figure. There are district totals and percentages categorized by "Public Schools," "Private Schools," and "Special State-Supported Schools."

The following race/ethnic definitions are from the Office of Management and Budget, Circular A-47 (Rev.1977), and do not denote scientific definitions of anthropological origins:

CODE	RACE/ETHNIC CATEGORY	DEFINITIONS
1	WHITE	Not of Hispanic Origin - A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.
2	BLACK	Not of Hispanic Origin - A person having origins in any of the Black racial groups of Africa.
3	HISPANIC	A person of Mexican, Puerto Rican, Cuban, Central or South American or other Spanish culture or origin, regardless of race. (Spanish surname alone is not used for inclusion in this category; e.g., an Anglo female with a Spanish surname is classified in category 1; also, students of Spanish descent without Spanish surnames are classified in category 3).
4	ASIAN or PACIFIC ISLANDER	A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian Subcontinent, or the Pacific Islands. The area includes, for example, China, Japan, Korea, India, the Philippine Islands, and Samoa.
5	AMERICAN INDIAN or ALASKAN NATIVE	A person having origins in any of the original peoples of North America, and who maintains cultural identification through tribal affiliation or community recognition.

There are three lines of data following each high school: The First, by code, by male/female, is the number and percentage of high school graduates. The Second Line refers to the number and percentage of graduates planning to enter institutions of higher learning in the Fall of 1979. The Third Line refers to those students who have left school under the provisions of Section 22-12-2(3) NMSA 1978, "...A person shall be excused from this [Compulsory School Attendance] requirement if: ...(3) the person has successfully completed the tenth grade or its equivalent, and if, after consulting with both the person to be excused and officials of the school or the school district in which the person is enrolled, the parent, guardian or other person having custody and control consents;..."

ATTRITION IS THE PERCENTAGE OF NINTH GRADERS WHO DID NOT GRADUATE FOUR YEARS LATER.

LOVING NINTH GRADERS WERE ADDED TO CARLSBAD BECAUSE THEY GRADUATE FROM CARLSBAD HIGH SCHOOL.

- TABLE IV -

COMPARATIVE HIGH SCHOOL GRADUATES - 32 YEARS

SCHOOL YEAR	GRADUATES	SCHOOL YEAR	GRADUATES
1978-79	18,905	1962-63	9,036
1977-78	18,600	1961-62	8,971
1976-77	18,138	1960-61	8,776
1975-76	18,049	1959-60	8,211
1974-75	18,541	1958-59	7,596
1973-74	17,537	1957-58	7,055
1972-73	17,353	1956-57	6,481
1971-72	16,929	1955-56	6,244
1970-71	16,428	1954-55	5,748
1969-70	16,064	1953-54	5,013
1968-69	15,644	1952-53	4,860
1967-68	14,803	1951-52	4,470
1966-67	14,481	1950-51	4,424
1965-66	14,146	1949-50	4,313
1964-65	13,671	1948-49	4,091
1963-64	10,874	1947-48	3,816

There has been an increase of 395% in the number of graduates in 32 years; there has been an increase of 149% in 20 years; and an increase of 21% in the last 10 years.

Note: Public high school graduates and special, state-supported school graduates are included in the above figures.

PUBLIC HIGH SCHOOL GRADUATES AS PERCENT OF 12th GRADE ENROLLMENT, & NUMBER & PERCENT PLANNING HIGHER EDUCATION, 1960-61 to 1978-79

- TABLE V -

School Year	12th Grade Enrollment	Number of Graduates	% Graduates of 12th Grade Enrollment	# Graduates Planning Higher Educ.	% Graduates Planning Higher Educ.

Table VII includes total professional staff in full-time equivalency in New Mexico public schools. Refer to Table XIII, pp. 107-108, for positions which are included in the above categories.

School districts are listed within the alphabetical county listing.

Data submitted as of September 30, 1978.

1/ These numbers are percentages of the category within each district. (The rounding factor may add to slightly above or below 100%.)

* Included in this table are full-time and part-time principals and assistant principals, in full-time equivalency, in public schools. * Three of the smaller districts, Floyd, Grady, and Mosquero, have not reported principals; generally, a head-teacher serves, in some of the smaller school districts, or the superintendent may serve, part-time, in the capacity of principal.

Districts are listed within alphabetical county listing; data reported as of September 30, 1978.

1/ Principals with BA degrees are serving in that position because they are fulfilling the duties of school principals. A one-year certification waiver has been issued to them by the State Department of Education so that they can complete the requirements for principal.

All professional personnel, certificated by the State Department of Education, are listed and counted in Table XIII.

* There are 5.9 nursing supervisors with an RN (Registered Nurse) degree included here.

**There are 78.7 nurses with an RN degree included in 174.5; they are not included in the BA or MA columns.

1/ All teachers are counted, including 69.1 vocational education non-degreed teachers, and eleven registered nurses who teach; the vocational teachers and teaching RNs are counted with the secondary BA-degree teachers.

Table XIII pertains to public school personnel only. Data submitted to the State Department of Education as of 9/30/78.

Years of experience, within the district, in other New Mexico districts, and out of state, is collected and computed by individual rather than by averaging school district means.

Positions which have been included in the categories in this table can be found in Table XIII, pp.107-108.

School districts are listed within alphabetical county listing.

Data submitted as of September 30, 1978.

This table refers to public school personnel only.

Race/ethnic definitions are from the Office of Management and Budget, Circular A-47 (Rev. 1977), and do not denote scientific definitions of anthropological origins:

CODE	RACE/ETHNIC CATEGORY	DEFINITIONS
1	WHITE	Not of Hispanic Origin. A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.
2	BLACK	Not of Hispanic Origin. A person having origins in any of the Black racial groups of Africa.
3	HISPANIC	A person of Mexican, Puerto Rican, Cuban, Central or South American or other Spanish culture or origin, regardless of race. (Spanish surname alone is not used for inclusion in this category; e.g., an Anglo female with a Spanish surname is classified in category 1; also, persons of Spanish descent without Spanish surnames are classified in category 3).
4	ASIAN OR PACIFIC ISLANDER	A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian Subcontinent, or the Pacific Islands. The area includes, for example, China, Japan, Korea, India, the Philippine Islands, and Samoa.
5	AMERICAN INDIAN or ALASKAN NATIVE	A person having origins in any of the original peoples of North America, and who maintains cultural identification through tribal affiliation or community recognition.

Ethnicity of staff is taken from School Personnel Form (SDE-Form 810-78) data, submitted as of 9/30/78, and includes public school personnel only.

1/ This category includes percentages of persons who did not report their ethnic background.

1/ Schools exclusively for Special Education students.
2/ These are post secondary schools. There are two vocational schools accredited as part of the high school: Bernalillo Skill Center and Santa Fe Voc-Tech, not included in this count.
3/ Included in the Jr/Sr high school count: a Mid High School, Grades 9-10. (See #6)
4/ Combination Elementary/Secondary, Grades K-9.
5/ The alternative schools in Las Cruces and Santa Fe are accredited as part of Las Cruces High School and Santa Fe High School.
6/ Most junior/senior high schools include grades 7-12; Alamogordo and Carlsbad each has a mid-high-school, grades 9-10 included here. Jemez Mountain, Melrose, Mountainair, and Questa each has a school with grades 8-12.
* Branch or junior college. All branch colleges are two-year institutions providing Associate in Arts degree.

Note: There are 130 private schools in New Mexico.

STATEWIDE TESTING PROGRAMS IN PUBLIC SCHOOLS

STATEWIDE TESTING PROGRAMS

The information in this section provides the most recent test scores from the major statewide testing programs administered by the Evaluation, Assessment, and Testing Unit. Additionally, statewide data on the ACT and SAT college entrance examination programs is presented, although these testing programs are arranged by students directly with the testing companies. The following tables are included here:

Table 1: Statewide Testing Programs
Table 2: Mean CTBS Scores
Table 3: CTBS Scores by Percentile Ranges
Table 4: APL Summary
Table 5: Vocational Skills Results
Table 6: G.E.D. Summary Data
Table 7: G.E.D. Diplomas by Test Centers
Table 8: ACT and SAT Scores

Further information on any of these programs can be obtained from the Evaluation, Assessment, and Testing Unit, State Department of Education, Education Building, Santa Fe, New Mexico 87503.

TABLE 1

STATEWIDE TESTING PROGRAMS
(1 of 2)

Testing Programs	Type of Testing	Instrument/Sources	Population	Schedule	Product
1. Standardized Testing Program	Achievement tests in Reading, Language, Mathematics, Science, Social Studies, Reference Skills. Multiple choice format.	Comprehensive Tests of Basic Skills (CTB/McGraw-Hill, 1974) Form S, Levels 2,3,4.	Grades 5,8,11; all Students.	Late March	Statewide summary information for annual reports and trend analysis in terms of national reference group; item analysis information for strengths/weaknesses.
2. New Mexico High School Proficiency Examination	High School "exit" test or "minimal competency" test; emphasis on "functional competency" or "life skills." Multiple choice format for APL; writing samples for Writing Appraisal.	A. Adult Performance Level (APL) Assessment (American College Testing Program, 1976). B. Local Writing Skills Appraisal based on SDE objectives.	Grade 10; retesting at grade 11: all students. Grades 9-12 (all students).	February	Successful students eligible for diploma endorsement. Statewide summary information for annual report. District and high school summary information reviewed.
3. Vocational Skills Testing	75-item multiple choice format. Tests in Auto Mechanics, Distributive Education, Electronics, Nursing, Agriculture, Secretarial Skills, Clerical Skills, Clothing, Foods, Child Development.	Separate SDE developed tests for each area.	Grades 10,11, 12: all students completing specific program.	January, May	Statewide summary report.

Testing Programs	Type of Testing	Instrument/Sources	Population	Schedule	Product
4. G.E.D. Examination	High school equivalency for adults; tests in Writing Skills, Social Studies, Science, Reading Skills, Mathematics. Multiple choice format.	Tests of General Educational Development (American Council on Education, 1978).	Adults: by choice.	Regular schedule in 25 centers statewide.	Successful candidates receive SBE's "New Mexico High School Diploma."
5. ACT/SAT Examination	Multiple choice format; college entrance examinations. A. ACT: English Mathematics Social Studies Natural Science B. SAT: Verbal Mathematics	A. ACT Exam (American College Testing Program) B. Scholastic Aptitude Test--SAT (College Entrance Examination Board)	Grades 11,12: by choice. Grades 11,12: by choice.	Regular schedule set by testing company.	Statewide data summarized by testing company and reported by SDE to note annual performance and trends.

SUMMARY OF APL TESTING: 1978-79

Basic Facts

Total Number of Students Tested	21,921
Proficiency Standard Set at	65% Correct
Number/Percent Scoring Above Proficiency Standard	17,576/80%
Number/Percent Scoring Below Proficiency Standard	4,345/19%
Range of Raw Score	21-196
Range of Percent Correct Scores	10-98%

The New Mexico Basic Skills Plan, as adopted by the State Board of Education in April, 1977, called for the Department of Education to conduct a statewide proficiency examination to determine student eligibility for a New Mexico High School Diploma Endorsement. The department selected as one portion of the examination a multiple choice test entitled the Adult Performance Level Test (APL), produced by the American College Testing Program.

Two previous administrations of the APL served to gather data for local and state level planning. The most recent testing, conducted during February, 1979, will affect students of the Class of 1981 in terms of their eligibility for the diploma endorsement.

The APL test, as currently used for the New Mexico High School Proficiency Examination, consists of questions in the areas of Community Resources, Consumer Economics, Occupational Knowledge, Health, and Government and Law. The 200 items are further divided into skill areas: Identification of Facts and Terms, Reading, Writing, Computation, and Problem Solving. In concert with the State Board of Education's New Mexico Basic Skills Plan, the test is designed to view basic skills in a practical application framework.

The administration of the test in February, 1979, showed an overall improvement in student performance over the two previous testings. Student total performance rose by 4% over 1977-78 to a point where 80% of New Mexico tenth graders are meeting or passing the proficiency standard on their first try at the test. Test scores for the various ethnic groups showed improvement in most areas of the examination for 1978-79.

Two questions were asked of students relative to how important and useful the skills represented by the actual test items were to them as young adults. The vast majority of students (94-96%) appear to feel the test measures skills useful to them, and important to their functioning in today's society.

It is important to note that successful completion of this portion of the New Mexico High School Proficiency Examination is not the sole requirement for earning the diploma endorsement. An equivalent portion of the proficiency examination is the Student Writing Skills Appraisal, developed by the department. Students must also successfully complete the writing exercises, according to criteria established by each district, in order to earn the endorsement.

Nursing Assistant, 11	118	50.9	67.9%
Nursing Assistant, 12	171	55.4	73.9%

*The highest possible score for each test was 75.

TABLE 6

SUMMARY OF GENERAL EDUCATIONAL DEVELOPMENT (G.E.D.) TESTING

Basic Facts

Number tested for first time	5,320
Number retested	1,770
Number of diplomas issued	5,009
Average Schooling level	Grade 9.9

The General Educational Development Test (G.E.D) is primarily used to appraise the educational development of adults who have not completed their formal high school education. The G.E.D. Testing Program operates in accordance with state requirements and supervision, and national policies. Candidates who successfully complete the battery of tests receive a New Mexico High School Diploma.

There are five subtests in the G.E.D. battery. They are: Writing Skills (80 items, 60 minutes); Social Studies (60 items, 90 minutes); Science (60 items, 90 minutes); Reading Skills (40 items, 60 minutes); and Mathematics (50 items, 60 minutes). These five tests are designed to measure as directly as possible, the major generalizations, ideas, and intellectual skills that are the outcome of four years of high school programs of instruction.

In general, the following are requirements for issuance of a diploma. A candidate must obtain a standard score of 40 on each of the five tests, or an average standard score of 50 on all five tests. He/she must be a resident of the state of New Mexico, and be 18 years old. However, if the individual meets the age requirement but his/her high school class has not graduated, the candidate cannot receive his/her diploma until graduation occurs.

New Mexico N = 766 Males; 678 Females
United States N = 479,224 Males; 512,393 Females

The American College Test (ACT) and the Scholastic Aptitude Test (SAT) are the two major standardized tests used to provide an indication of how well an individual student may be expected to perform in the collegiate academic arena. It should be noted that the tests do not attempt to measure innate intelligence nor do they stress specific factual knowledge. The ACT battery contains four multiple choice tests in the areas of English usage, mathematics usage, social studies reading, and natural sciences reading. Scale scores on each of these tests range from one to thirty-six. Scores on the Scholastic Aptitude Test, which has two areas - verbal and mathematical - are reported on a scale of 200 to 800.

*Includes cost of Regular, Special and Kindergarten transportation.

**Per Capita Feeders removed.

***Since New Mexico has many isolated, rural areas, statutes provide for reimbursement to parents on a per capita basis to meet school buses where "regular school bus service is impractical because of distance, road conditions, or the sparseness of population." During the 1978-79 school year, 658 of these arrangements operated in 76 of the 88 districts. A total of 1,442.5 pupils were involved, with a daily mileage (one round trip) of 10,639.9 and a cost of $403,355.31. One per capita feeder was for vocational transportation.

(1) Does not include $40,000 for computer routing project.
(2) Does not include $16,605 operational money spent by district.
(3) Does not include $24,993 operational money spent by district.
(4) Does not include $ 1,667 operational money spent by district.
(5) Does not include $ 2,232 operational money spent by district for radio dispatcher.

The above data is based upon the audited November 15, 1978, reports and the June 30, 1979, expenditure report to Public School Finance Division.

SELECTED STATISTICS

ADULT BASIC EDUCATION

Analysis of State Needs

A national study released by the National Advisory Council on Adult Education reveals that in New Mexico there are more than 293,979 adults 16 years of age or older who are not presently enrolled in school and who have not completed their high school education. This figure represents better than 45% of New Mexico's adult population. A more precise breakdown reveals that 19.9% of these have fewer than four years of schooling and would fall in the illiterate and/or functional illiterate category; 20.8% have fewer than eight years of schooling and would be classified in the intermediate category; and 59.3% have fewer than 12 years and would be included in the advanced level. Recent studies which demonstrate the attrition rate of New Mexico students enrolled in the 9th through 12th grades reveal that there are more than 5000 students who leave school during the school year.

Recent unemployment studies conducted in New Mexico show that 46% of our unemployed citizens who are actively seeking employment have less than 11 years of schooling. This reveals that there are over 13,110 unemployed adults who are seeking employment without the benefits of a high school diploma.

In 1971, the United States Office of Education awarded a grant to the Texas Education Agency to conduct a study of adult literacy in the United States. The agency, in turn, subcontracted the major portion of the work to the Division of Extension of the University of Texas at Austin. Under the direction of Dr. Norvell Northcutt, a study of adult literacy in the United States was begun. This four year study was called the Adult Performance Level Research Project. The New Mexico Division of Adult Basic Education participated in this study by assisting in the development of the survey instrument and in the collection of data by surveying sample groups of New Mexico citizens.

The ability to use skills and knowledge with the functional competence needed for meeting the requirements of adult living is often called "functional literacy," "survival literacy," or occasionally, "coping skills." The central objective of the Adult Performance Level (APL) project was to specify the competencies which are functional to economic and educational success in today's society and to develop devices for assessing those competencies in the adult population of the United States.

Given the premise that adult competency is primarily composed of four knowledge and skill areas, these were then related to specific tasks associated with the basic requirements of adult living.

The APL - Four knowledge areas are:

1. adult reading level
2. adult writing level
3. adult computational level
4. general knowledge variables

These four areas were then applied to five adult living knowledge needs. These are:

1. occupational knowledge
2. consumer economics
3. community resources
4. government and law
5. health

Using the above format, 72 competency based objectives were identified. Each of these described those tasks or skills necessary for the basic requirements of adult living. These objectives were then keyed to the five general knowledge areas of occupational knowledge, consumer economics, community resources, government and law and health.

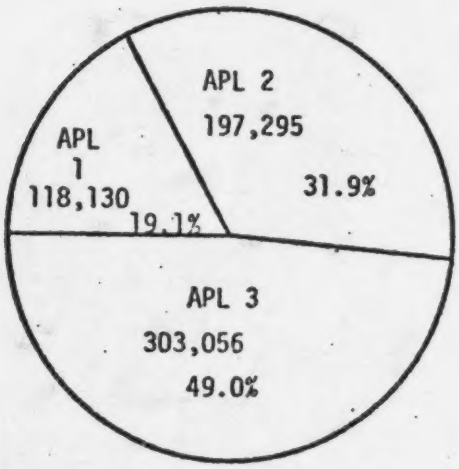
The purpose of determining competency levels of adults, three levels were defined as APL level 1, APL level 2, and APL level 3. Those adults classified as APL 1 are functionally incompetent in most areas.

With use of a measurement tool an APL national survey was conducted. The adults tested were made up of demographic variables which included age, regions, level of education, sex, occupational, family income, city size,

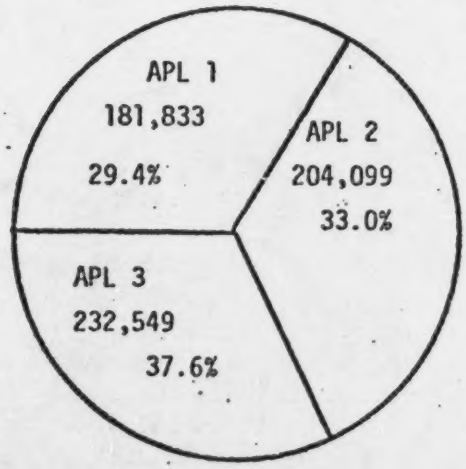
number of persons in household, employment status and ethnicity.

By using the outcome of this survey, we are able to identify specific competency levels of adults 18 years of age and older who are residents of New Mexico. Based on the 1970 census figure, it is estimated that there are 618,481 adults 18 years of age and older who are living in New Mexico. Population trends in the past 8 years indicate that this figure is slightly lower than the present adult population. However, for the purpose of this analysis, the 1970 census figure will be used.

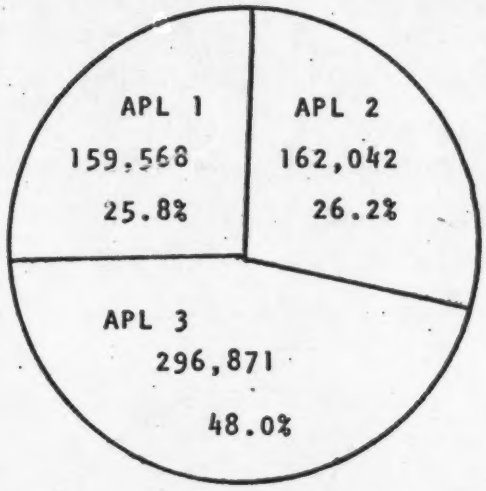
A. New Mexico APL levels for occupational knowledge.



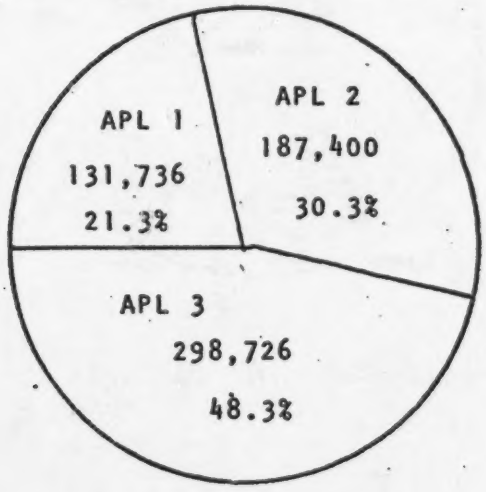
B. New Mexico APL levels for consumer economics.



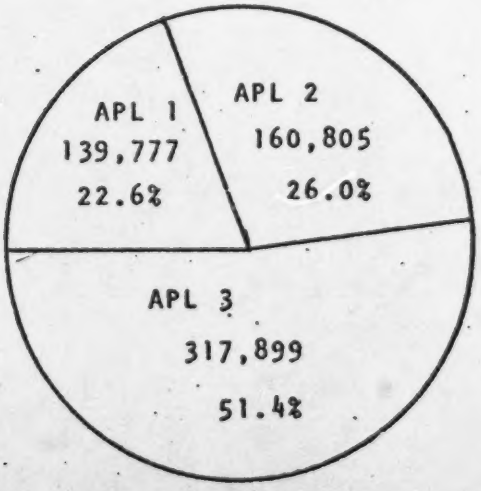
C. New Mexico APL levels for government and law.



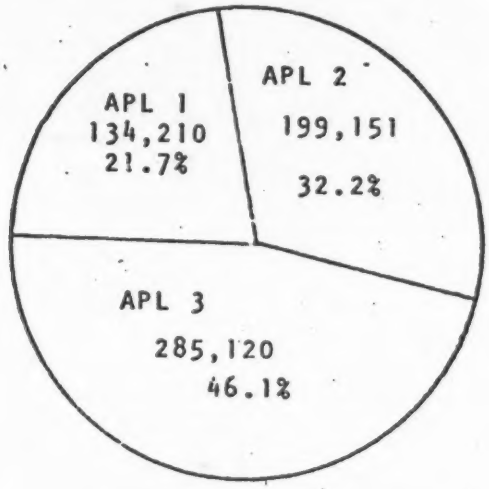
D. New Mexico APL levels for health.



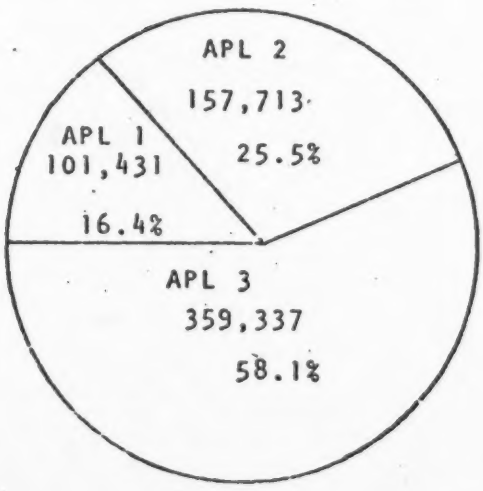
E. New Mexico APL levels for community resources.



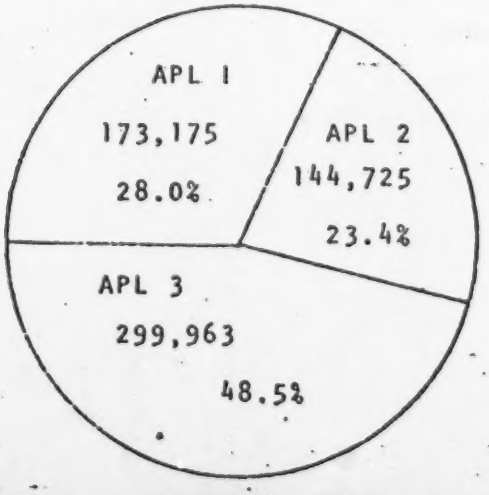
F. New Mexico APL levels for reading.



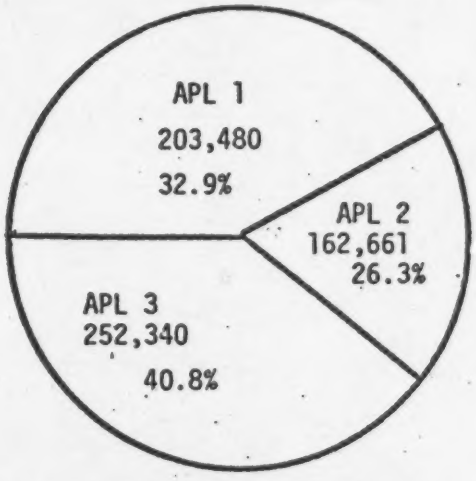
G. New Mexico APL levels for writing.



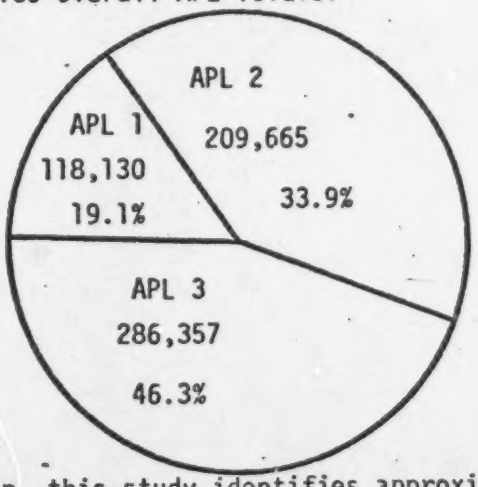
H. New Mexico APL levels for problem solving.



I. New Mexico APL levels for computation.



J. New Mexico overall APL levels.



In summation, this study identifies approximately 118,130 New Mexico adults who may be functionally incompetent; 209,665 who may be marginally incompetent; and 286,357 who may be able to perform at an acceptable competency level.

The Scope of the State ABE Program

There are presently 10 full-time regional centers in New Mexico. These are located in Albuquerque, Santa Fe, Gallup, Farmington, Las Cruces, Las Vegas, Taos, Espanola, Clovis and Roswell. Each of these full-time centers also provide part-time satellite programs in communities within their region. Other part-time projects which are independently operated through the state ABE program include: Hobbs, Silver City, Carlsbad, Alamogordo, Cobre, Deming, Socorro, Grants, Artesia, Lordsburg, Truth or Consequences. In addition, there are two full-time projects located at the State Penitentiary and at the Roswell Correctional facility for Boys. In 1977-78, ABE had an enrollment of 9528 adults. In 1978-79, our state enrollment was 12,569. It is anticipated that our current year enrollment will exceed 13,000 students.
